

COVID-19: RESPONSE PLAN

In the event of a school shut down triggered by a coronavirus case, we have the following response plan to minimise infection spread

Deep clean and sanitisation of classrooms, offices and common areas using commercial grade disinfectants

- Disinfectant products⁽¹⁾ utilising broad spectrum germicidal activity, to >99.9999% effective rate⁽²⁾
- 7–12 days to complete full sanitisation

Application:

- Combination of direct surface treatment / airborne spray / electro-static spray

Focus on high-touch areas:

- ✓ Door handles
- ✓ Water fountains
- ✓ Light switches
- ✓ Desks
- ✓ Handrails
- ✓ Toilets
- ✓ Faucets
- ✓ Sinks

(1) Products include Triad III J-Flex Disinfectant and Diversey Shield E6.
(2) Refers to microbiological data from tests using Triad III J-Flex Disinfectant and reduction in organisms E. coli and staph.
